

HOW TO LEGALLY PURCHASE AND CREATE A DOWNLOAD

General Information

- ★ Check your computer's system to see if it meets the requirements of the downloading site.
- ★ Have read/write (CD-RW) or a read-only CD (CD-R) ready; insert it into the read/write CD drive
- ★ Have your credit card ready
- ★ Go to www.walmart.com/music
- ★ Create an account
 - E-mail address
 - Password
- ★ Provide a credit card to use for charge
- ★ Do not plan on "multi-tasking" on the computer while you are downloading or burning a CD.

To Download

- ★ Go to <http://www.walmart.com> and click on \$.88 downloads under "music"
- ★ Search for the song you want by artist or title
- ★ Listen to a snippet of the song so you know you are getting the one you want
- ★ Then click on "add to cart" (picture of cart)
- ★ Go to "Edit Cart/Checkout" at the top right of the Wal-Mart screen
- ★ Click on "Checkout"
- ★ Click "Purchase and download" (should show a moving series of down arrows at the bottom right of the computer screen)
- ★ It will say, "Download complete"

To Create a CD

- ★ Go to "Start" at the bottom left of the computer screen
- ★ Click on "Windows Media Player"
- ★ Go to "Edit play list." You should see the song you just downloaded.
- ★ Play the song once to enact the license. Wait until the song plays through.
- ★ Click on "Start burn" then wait.
- ★ When the screen indicates the CD is completed, you are finished. You should be able to play the CD in the car, on a CD player or in a computer.
