## OTHER FEFE MATERIALS

Family Economics & Financial Education has developed a few introductory lessons that explore the basic concepts of finance and economic principles. Educators may choose to purchase or download the materials. New in 2005-06, the **introductory curriculum** is being expanded to a 2-3 week course to better serve students and educators. Watch for details. Other offerings are;

- ★ **FEFE bulletin boards** that illustrate the main concepts of units and lessons;
- ★ **Anticipatory and review sets** which are fun and activity based stressing a variety of content areas;
- ★ **Student workbook** to be used in conjunction with the semester course recommendation. The workbook contains all of the materials students will need to complete the semester course; worksheets, assessment tools rubrics, and information sheet handouts.
